

## 2022 Point-in-Time Data

**Population:** 14,605 • **Number of Households:** 5,261  
**Median Household Income:** \$81,907 (state average: \$69,588)  
**Labor Force Participation Rate:** 62.7% (state average: 66.6%)  
**ALICE Households:** 27% (state average: 26%) • **Households in Poverty:** 7% (state average: 11%)

## Financial Hardship Over Time

ALICE is an acronym for **A**sset **L**imited, **I**ncome **C**onstrained, **E**mloyed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the county (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

Households move below or above the ALICE Threshold as economic factors and circumstances change. This was especially true amid the economic crosscurrents of the COVID-19 pandemic, with higher wages, inflation, and additional pandemic assistance. By 2022, 1,792 households (34%) were below the ALICE Threshold in Mills County.

## The Cost of Basics Outpaces Wages

The Household Survival Budget reflects the minimum cost to live and work in the current economy and includes housing, child care, food, transportation, health care, technology, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the county level and by household composition, as costs can vary greatly depending on location and household needs.

In 2022, household costs in Mills County were well above the Federal Poverty Level of \$13,590 for a single adult and \$27,750 for a family of four.

# Financial Hardship is Not Evenly Distributed

Groups with the largest number of households below the ALICE Threshold tend to also be the largest demographic groups. However, when looking at the percentage of each group that is below the ALICE Threshold, some groups are more likely to be ALICE than others.

By addressing the disparities in financial hardship by county demographics, community members can move toward more equitable solutions.
